President's Corner

Piccadilly was formed in July, 1971 by 7 guys with great vision! As we Celebrate our 40th year of existence, Piccadilly is making some exciting changes. One of them is to roll back our membership rates – no not quite to the beginning, but back a few years: \$25 for returning members and \$30 for new. This becomes effective immediately and if you were one of the two go-getters who already re-upped your membership, see our trusty Don Z for a rebate. 2nd is we are making strides to go green along with the rest of the world. We will be sending out our monthly newsletter electronically and have a few paper copies at the meetings starting with the September issue. I know, I know, I like a paper copy too, but this save us on postage & printing allowing us to do things to benefit all, like roll back our rates etc. So when you fill out your membership form, please supply a current email address & remember that it will be posted on the web as well. Thanks for being understanding on this. 3rd while it's not necessarily a 'change' is sure is exciting: Please see our Trip list for this upcoming season. Monica Magee & Marsha Ford, along with their trip committee have worked very hard to present what I think is our finest offering yet. If you wish to run a trip, please step forward to Monica, Marsha or any board member asap. Have a Fabulous and Forty Summer!!!! ~Dawn Roche~

Sitting Can Kill You!

In a recent study it was found that a sedentary lifestyle is as dangerous as smoking! So, if you sit around smoking all day, look out! You know how those studies go, but suffice it to say you should stay in shape. Now that the weather is nicer, get out there and bike or walk or partake in some team sports. Several people in the club play sand volleyball and co-ed softball as well as indoor volleyball and wallyball in the cooler months. Try some of the upcoming bike rides and take part in volleyball or bags at the picnic. Check out the CMSC picnic and the golf outing. Dancing is also great exercise and there are plenty of opportunities at all of the outdoor festivals. Be careful not to overload on junk food! Take a dip in the pool. On second thought, don't take the dip in the pool, swim instead! Visit a lake, river or waterpark, just watch out for sharks lurking around the corner!

If you have been inactive for a while, you may want to consult your doctor before entering a triathlon! Please note: Getting on a bandwagon or a high horse is not considered exercise. Seriously, get moving whatever it is and remember to stretch out beforehand so you don't pull anything. In the warm weather it is especially important to remain hydrated. Water is the best at hydrating. However, if you are drinking water all day even when not exercising, you may be overhydrating, or it may indicate a health concern. Drinking plain water in excess may actually make you thirsty and sluggish! Sweet drinks and alcohol only help to a certain extent and alcohol and caffeine are diuretics which means they make you go to the bathroom more often, dehydrating you in the process.

Stay in shape, you know I always do!

Ski Meister Harry (hydrating at this very moment)

What? Beer is mostly water!

Piccadilly News Flash !

Saturday, June 18th, the Appreciation Party was held at Hillar & Sue Akk's home in Lemont. This gathering is our way of saying "thanks" to all the people that have volunteered their help in many ways to Piccadilly from having a bike ride to running ski trips. My special thanks to Hillar & Sue and my special thanks to all the people that helped the club last year.
Sincerely, Ed Carroll
