Our ever popular warm weather trip will be hitting the Caribbean this year. We will be traveling to Punta Cana in the Dominican Republic. Punta Cana, the largest and fastest growing tourist destination in the Caribbean, is known worldwide for its stunning beaches. Piccadillians will be staying at the beautiful Punta Cana Princess Resort. There is nothing more one could want at this all inclusive resort than the five restaurants, three bars and a full spa located on the premises. For the water fans, you can bet you'll find water-sports in Punta Cana that fit the bill! There is a 39 kilometer long coral reef protecting most of the 63 km. stretch of beach, resulting in some great surf locations. This reef also creates an abundance of awesome snorkeling areas with several sunken ships and tropical fish everywhere you look. Snorkeling, sailing, windsurfing and kayaking are available at the resort and drier endeavors such as tennis, beach volleyball, bicycles and a fitness center are perfect for landlubbers.
